DynaTek Media
7807 E. Greenway Road, Suite 6
Scottsdale, AZ 85260

Dear: Ron

Mixcast Network is looking forward to building upon the partnership with DynaTek Media encompassing the immediate launch of an out of home Digital Signage network branded as a Multicast Channel. The out of home Mixcast Channel will make its national debut during Super Bowl week in Tampa, Florida beginning Jan. 29 – Feb. 1, 2009. Currently Mixcast Network has direct relationships with BET, Vibe Magazine, and Warner Bros. Records to name a few which are being approached to place advertisements on the out of home Mixcast Channel.

The Digital Signage channel powered by DynaTek Media will expand Mixcast Network's advertising platform and provide additional branding distribution to potentially 6,000 urban communities currently under contract with DynaTek Media. Currently Mixcast has nearly 2,000 hours of original programming that we can select from to engage the hip-, young, and social audience these brands so desperately want to reach. Mixcast will provide various short form spots and relevant entertainment content from its existing client base to begin airing on the Roscoe's Chicken and Waffles / CYC-TV network. The Mixcast programming is designed to attract additional advertisers and establish a rate card in detail as a consensus for a going forward fee agreement with DynaTek.

Mixcast Network is looking forward to receiving the branded Mixcast Digital Signage System in its Corporate Office to begin actively selling spots on the Multicast Channel and other networks currently owned and operated by DynaTek Media.

Please accept this letter as our intent to work together with DynaTek to sell advertising, content, and other forms of media on the branded Multicast Channel, MedlinkTV, CHC-TV, CYC-TV, and other channels Powered by DynaTek Media in public facilities, entertainment complexes, clinics, doctor's offices, and restaurants.

Sincerely,

Gary S Murray II
